A good % of trailer park tenants live well under the 200% Federal poverty levels. However I just have 1 water meter for my 40 spaces and over 100 persons. My rents range from \$250 to \$300 a month and include, water, garbage and sewer. My rents are often late due to the low income level of my tenants. If possible please pass this along to the decision makers.

Subject: AB401

I own a 40 space trailer Park on City water. My tenants are mostly low income and or CARES with PG&E. I charge them a flat rate, which does not equal my monthly City water fees.

Is there something available to help my tenants?

Thanks: Bob
